-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 1/14/04 has been received and made of record in the application file wrapper. Note the acknowledge form PTO-1449.

Drawings

2. The drawings were received on 2/17/04. These drawings are approved by the examiner.

Specification

3. The disclosure is objected to because of the following informalities:
The incorrect usage of the porosity dimensions. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the

Art Unit: 3743

invention. More specifically, the dimensions of porosity or how porous an article is does not involve the time dimension. Thus, when one having ordinary skill in the art attempts to make the disclosed article, confusion will arise. Note attached Exhibit A, which provides definitions of term porosity.

The applicant is cautioned that when amending the specification, not to include new matter.

6. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant should note that it has been held that where the metes and bounds of the claim are indefinite, it is improper to base a rejection on speculation as to the meaning of the claim. *In re Steele*, 305 F. 2d 858, 134 USPQ 292 (CCPA1962). Specifically, unclear claims are indefinite, not obvious. *In re Wilson*, 424 F.2d 1382, 185 USPQ 494 (CCPA 1970). Consequently, claims 1-20 will not be given prior art rejections.
